

Computer Magnet Personal Magnet Portfolios

All students in the Computer Magnet will create their own website portfolio.

Portfolios should include at a minimum:

- Graphic – Each page must include a meaningful graphic or image that reflects the nature of the page.
- Introduction page – “My Portfolio” Your title and an intro about the website and about you. Should include an image. This opening page **must be** named **index.html** (it is case-sensitive) so that it will be the default page displayed by the web server.
- Project Gallery – post the projects that you have built in the magnet.
- Resource page – This is where you can put links/tools that give you quick access to what you need when you need it (websites, templates, worksheets).
- Resume page – “About Me page”, include: activities, awards, special recognition, work experiences, education, GPA, skills, references, workshops, conferences. This is not a “My Space” page.
- SLP (Strategic Life Plan) – This page will post your future plans.
- My Space – This is the page where you can put your favorites and express your individual interest.
- Organization: create a folder for the site and at a minimum, subfolders for **Pictures, Projects** and **Buttons**. Create additional subfolders if warranted.
